

# Assistive Tech for Study Success

## What is Assistive Technology?

Do you use a spell check? Do you use voice recognition? If the answer is yes, you're already on the road of using assistive technology. Designed to enhance your studying experience, assistive technology can speed up the production of written work, aid in note making, planning and help with revision and presentations.

## What support is available?

We are here to support you throughout your student journey at YSJ. Whether you have specific learning goals or just enjoy discovering new tech, We can support you through one-to-one appointments, and email. You can see examples of the type of support we offer on the reverse of this factsheet.

## Questions?
